Previous meeting minutes posted in text.

We have both a motion, and the results of a survey as tabled business. As the results will no doubt affect the motion, we will hear from that, first.

Survey results. We had 22 responses, most have attended, before, and are between 2 to 5 hours away. About a third say they weren't attending this year. Most say they can't afford to go, or can't get the time off. Travel costs seem to be an impediment. People also want more regular information about the con.

We have received \$2090 in pre-registrations so far, and \$1755 in the bank. Assuming we cut as much as possible, and entirely get rid of the storage space, we'd still be \$2000 behind, but we will likely get more pre-reg, and people at the door, so we should just scrape by.

The storage space is our most expensive recurring cost. Eliminating it would help us significantly, financially.

Motion to cancel Wild Nights for 2024
Motion fails

Victor can help with unloading the storage.

We need badge and t-shirt artwork.

We could really use a hype-man.

Open call for GoH suggestions for next year.

Meeting Closed: 1:39pm
